

**IEC 61243-1****DESCRIPTION :**

Electronic voltage detector for networks from 44 kV to 132 kV.
For indoor and outdoor use.

CHARACTERISTICS :

- Nominal range : 44 kV to 132 kV.
- Possible fittings : see drawing underneath (C fitting on picture).
- Electrode : hook diameter 120 mm opening.
- Signal : visual with 4 flashing red LED and audible intermittent signal.
- Test when pressing : visual red LED and audible signal.
- Test when releasing : timed green pilot diode.
- Colour of the box : yellow.
- Marking : in French or English.
- Power supply : 1 standard 9 V battery (6LR61).
- Packing : polypropylene case.
- Dimensions : 370 x 165 x 145 mm.
- Net weight, without hook : 0,650 kg.

Possible fittings :**E****C****K****W****V****B**
